

M. Bradley Calobrace, MD, FACS

Calobrace Plastic Surgery Center
Louisville, Kentucky

ASK DR. CALOBRACE

HOW WOULD YOU CATEGORIZE YOUR PROCEDURE OFFERINGS?

My practice is purely cosmetic. I perform nearly 1,000 cosmetic surgical procedures a year, including advanced cosmetic breast surgery, body contouring procedures and facial rejuvenation.

HOW DO YOU INSPIRE INTIMACY IN SUCH A LARGE OFFICE SPACE?

We do have a relatively large facility, at 16,000 square feet, because it houses a state-of-the-art plastic surgery clinical practice, a fully accredited on-site surgical center, the Cosmetic Breast Center, and CaloSpa—an 8,000-square-foot medi-spa. Our staff runs a smooth, efficient and very friendly office where every patient feels like our only patient that day. We strive to make everyone feel special.

HOW DO YOU PROCEED IF YOU DON'T THINK A PATIENT NEEDS SURGERY?

I never sell or push surgery on anyone. My goal is to help patients find good solutions. Sometimes that includes surgery—sometimes it doesn't! I only perform a procedure if I truly believe I can achieve outstanding results. In that way, I am a perfectionist.

Advanced cosmetic and breast surgery

Dr. Calobrace is a fellowship-trained cosmetic and breast surgeon entering his 16th year in private practice. He performs more than 1,000 cosmetic surgical procedures a year, specializing in facial rejuvenation, body contouring and breast surgery. As a recognized leader and educator in cosmetic breast surgery, his experience is sought out and he routinely performs 400-500 cosmetic breast procedures each year. Dr. Calobrace is a consultant and lecturer, traveling nationally and internationally, providing insight on the subject of breast surgery. This will mark his fifth consecutive year as faculty at the annual Atlanta Breast Symposium, and he will participate as a panel lecturer at the American Society of Plastic Surgeons meeting in October. Although busy traveling, lecturing, publishing and sharing his expertise, Dr. Calobrace's real passion is taking care of each and every one of his patients. Nearly half of his practice involves complex and difficult revision breast surgeries, as well as a variety of breast lifts, reductions and augmentations. The other half is filled with facial cosmetic procedures and body contouring.

BREAST AUGMENTATION

WHY DO YOU ONLY OFFER PATIENTS A SUBMUSCULAR APPROACH TO BREAST AUGMENTATION?

By placing implants both under the breast tissue and pectoral and chest muscles, I'm able to hide the implant better and minimize the chance of capsular contracture. Since the implant is completely covered through this technique, the chance of wrinkling is reduced, allowing for perkier positioning of the breasts. The results look so real. Patients also say they feel more natural, as well.

“I make sure that surgery is ultimately worth it for the patient”

PATIENTS WHO WALK INTO THE SLEEK, SPACIOUS, BEAUTIFULLY DESIGNED PRACTICE OF DR. M. BRADLEY CALOBRACE—CALOBRACE PLASTIC SURGERY CENTER—ARE GREETED WITH FRIENDLY SMILES AND ARE IMMEDIATELY PUT AT EASE BY THE TRANQUIL AMBIENCE. “WE PRIDE OURSELVES ON PROVIDING A WARM, RELAXED ENVIRONMENT. WE WANT EACH CLIENT'S EXPERIENCE TO BE INFORMATIVE, WORTHWHILE AND QUITE SPECIAL.”

ABOUT DR. CALOBRACE

WHY DID YOU BECOME A PLASTIC SURGEON?

I found that plastic surgery allowed me to combine creativity, artistry and surgical skills to produce results that would change people's lives.

HOW DO YOU KNOW WHEN A PROCEDURE IS COMPLETE?

I never leave the operating room until the results are the absolute best they can be.

WHAT ARE SOME OF YOUR HOBBIES?

I am really into traveling, weight lifting, running, spending time with friends and family, theater and tennis.

HOW DO YOU START EACH DAY?

I get up at about 5 a.m., do paperwork, read and work out prior to my 7:30 a.m. surgery.
